1.

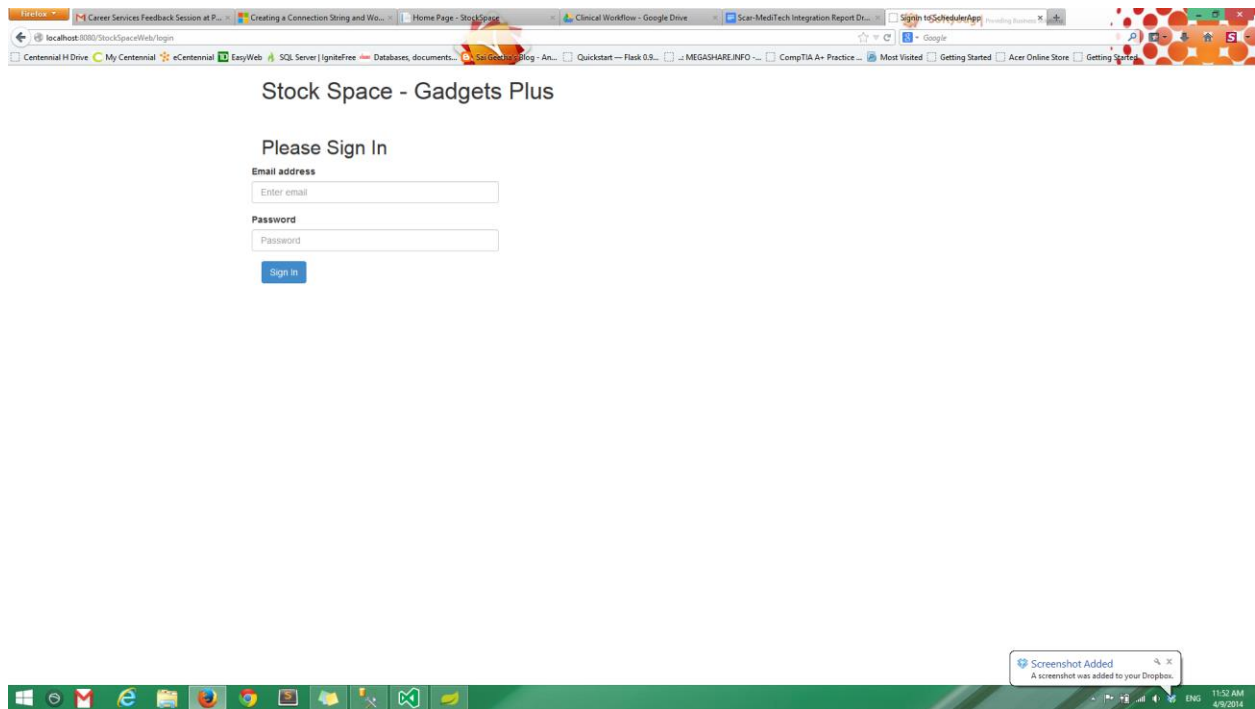

Welcome Page

This is the home page of the system. There is a panoramic view of the "**Gadgets Plus**" store and a brief information about the system below. On the top of the page there is a title bar which contains the name of the system to the left and there are options for Home, About and Contact which displays the respective information about the store. On the extreme right there is a link to Sign in into the system. Clicking on the link take the user to the next page.

2.

Login Page

The screenshot shows a web browser window with the title "Stock Space - Gadgets Plus". The page has a header with the same title. Below the header, there is a section titled "Please Sign In". This section contains two input fields: "Email address" with a placeholder "Enter email" and "Password" with a placeholder "Password". Below these fields is a blue "Sign In" button. The browser's address bar shows the URL "localhost:3030/StockSpaceWeb/login". The Windows taskbar at the bottom shows various application icons and the system clock indicating 11:52 AM on 4/9/2014. A small notification bubble in the bottom right corner says "Screenshot Added" and "A screenshot was added to your Desktop."

Sign In

This is the login page of the system. The user has to sign in using his email address and his chosen password. Once the credentials are verified the user is taken to the dashboard of the system.

3.

Dashboard

This is the dashboard of the system which contains each and every option available to the user. On top all the modules of the system are provided which are Inventory Management, Repair Management, Payroll, Reports and Customisation. Clicking on these links takes the user to the respective functionalities. To the left of the page six options of Companies, Category, Subcategory, Products, Stock and Repairs are stacked. These options provide easy navigation support to locate products available for sales and tracking the products taken in for repairs. On the title bar there is Logout function available to sign out of the system.

Screenshot Added
A screenshot was added to your Desktop.

11:52 AM
4/9/2014

This page shows the inventory module of the system. The data displayed is of all the companies whose products are available for sales. Each company is classified using a unique company id followed by the company name and the date on which its entry was created in the system. For every company there are options to edit the company particulars and to either activate or deactivate the company. On the top right corner of the page there is an option to add new companies.

5.

Activate Company

The screenshot displays the 'Company' management interface in the StockSpace Mobile Shop Management System. The page is titled 'Company' and shows a list of companies with their details and management options.

Company Id	Company Name	Date Created	Actions
100	dipen	2013-06-05 00:00:00	activate
101	HTC	2014-02-25 00:00:00	edit deactivate
102	Carbon	2014-03-01 00:00:00	edit deactivate
103	Sony	2013-08-05 00:00:00	edit deactivate
104	Asus	2013-05-12 00:00:00	edit deactivate
105	Google	2013-01-25 00:00:00	edit deactivate
110	Samsung	2014-01-21 00:00:00	edit deactivate
111	Test Company	2014-04-08 14:07:18	edit deactivate
112	ericsson	2014-04-08 14:56:10	edit deactivate
113	sanket	2014-04-08 17:14:07	edit deactivate

The page also includes a sidebar with navigation links (Companies, Category, SubCategory, Products, Stock, Repairs) and a top navigation bar with links (Home, About, Contact, Logout). A 'Screenshot Added' notification is visible in the bottom right corner.

This page shows the activation and deactivation options available for a company. As it is evident that for the company name dipen the activate option is highlighted, that is because it has been deactivated. Other available companies like HTC are still activated that's why their information can be edited and of course that's why the deactivate option is available for them.

In case the store decides to discontinue the products of a company it can be deactivated. Once the products are available for sales again it can be activated again.

6.

Edit Company

The screenshot shows a web browser window with multiple tabs. The active tab is titled 'Stock Space Web Application' and shows a URL of 'localhost:2020/StockSpaceWeb/company/edit/101'. The browser's address bar and tabs are visible at the top. Below the browser window, the 'Edit Company' page is displayed. It features a sidebar on the left with a 'Logged in as Gadgets Plus' status and a list of menu items: Companies, Category, SubCategory, Products, Stock, and Repairs. The main content area is titled 'Edit Company' and contains a form with a 'Company Name' field set to 'HTC'. Below the field are 'Cancel' and 'Update' buttons. At the bottom of the page, there is a copyright notice '© 2014 StockSpace'. A Windows taskbar is visible at the very bottom of the image, showing various application icons and a system clock indicating 11:59 AM on 4/9/2014.

For each company listed in the system the information can be edited by pressing the edit button in front of the company name. Once this button is pressed the above page appears. The editable information which is basically the name of the company can be corrected and updated by pressing the Update button. The changes are highlighted in the list automatically.

7.

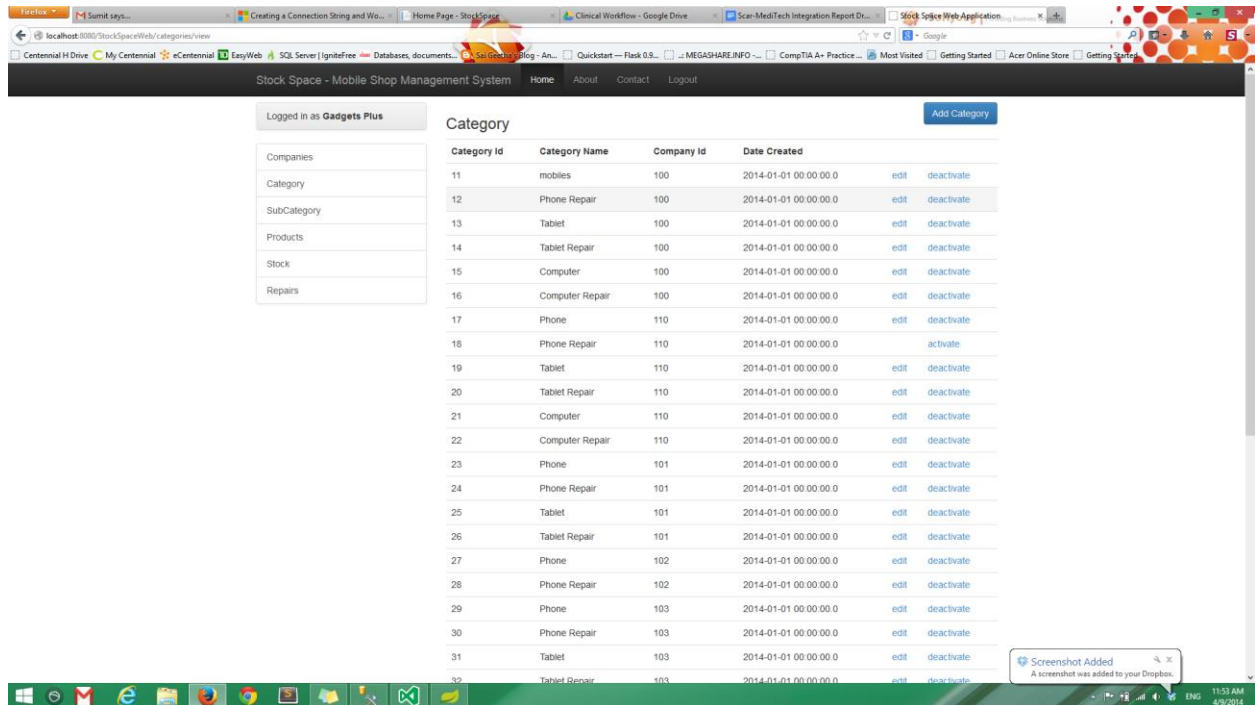

New Company

The screenshot shows a web browser window with multiple tabs. The active tab is titled 'Stock Space Web Application' and shows a URL of 'localhost:2080/StockSpaceWeb/company/addnew'. The browser's address bar and tabs are visible at the top. Below the browser window, the 'New Company' form is displayed. The form has a dark header bar with the text 'Stock Space - Mobile Shop Management System' and navigation links: 'Home', 'About', 'Contact', and 'Logout'. On the left side of the form, there is a sidebar with a 'Logged in as Gadgets Plus' button and a list of categories: 'Companies', 'Category', 'SubCategory', 'Products', 'Stock', and 'Repairs'. The main content area is titled 'New Company' and contains a 'Company Name' text input field. Below the input field are two buttons: 'Cancel' (red) and 'Save' (green). At the bottom of the form, there is a copyright notice: '© 2014 StockSpace'. A 'Screenshot Added' notification bubble is visible in the bottom right corner of the browser window, indicating that the current screen has been captured. The Windows taskbar is visible at the very bottom of the image, showing various application icons and the system clock displaying '11:59 AM 4/9/2014'.

When the store decides to sell the products from a new company the respective company has to be listed in the system. This can be done by pressing the Add Company button. On pressing this button the above screen appears. The name of the new company has to be entered in the text box provided. On pressing the save button the new company is added to the list of companies whose products are available in store.

The products in the store either for sale or given for repairs have to be classified into different categories. The above page displays these categories. Each category is identified with a unique category id followed by a category name. There is a company id which helps to identify the company of whose product is being referred to. The date on which the category is created is also provided for every category. Every category can be edited and activated or deactivated as per requirement. For adding a new category there is a Add Category button on the top right corner of the page.

9.

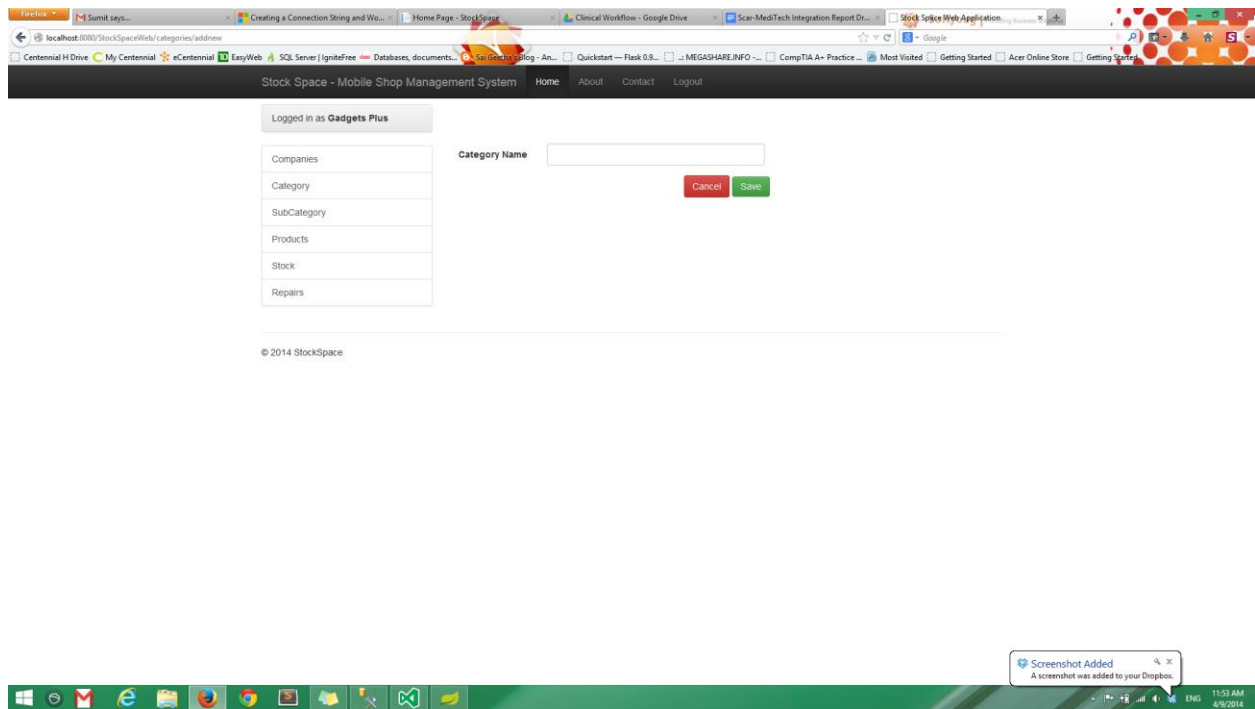

Edit Category

For every category listed in the system, its particulars can be edited by pressing the edit link in front of the category name. On pressing edit the above page appears. Here can category name can be edited. On pressing the update button the updated category will appear in the category list.

10.

Add New Category

A new category can be added in the system by pressing the Add Category button. On pressing this button The above page appears. Here the category name can be entered in the given text box. On pressing the save button the new category will be added in the list along with an auto generated category id. Also the date and time on which the category is created will appear automatically.

11.

Navigation Links: Companies, Category, SubCategory, Products, Stock, Repairs

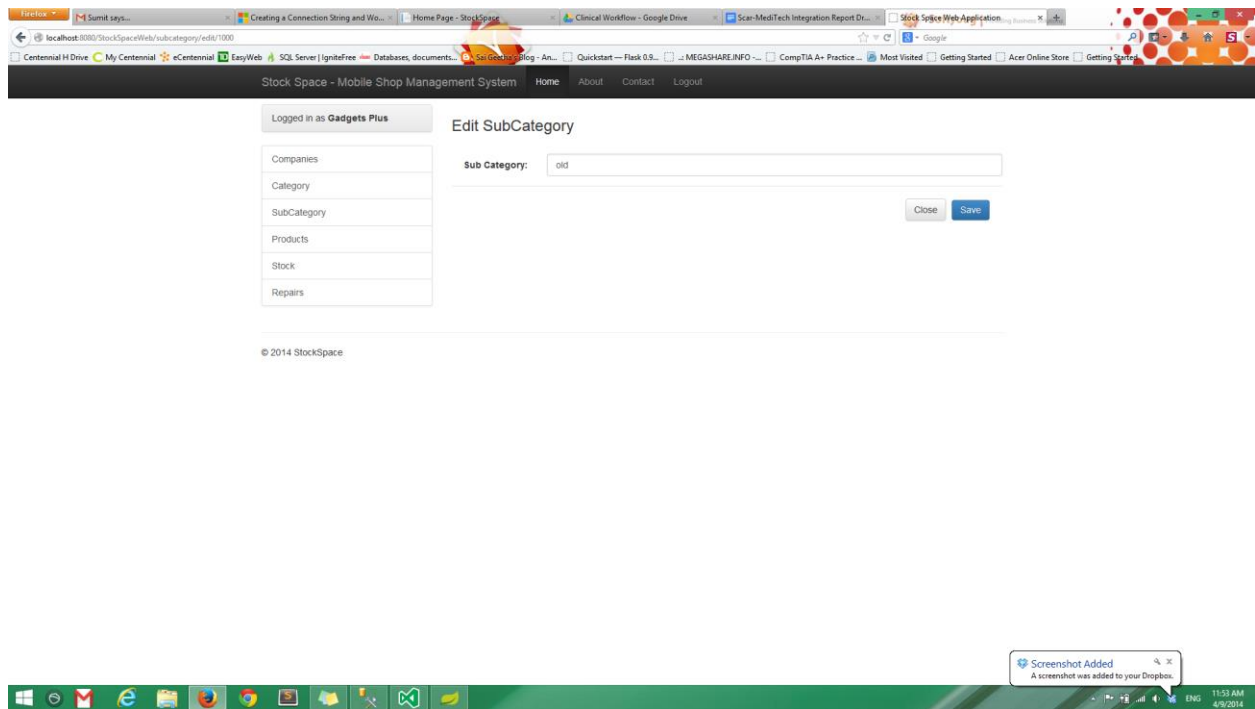

System Message: No Subcategory Added. A subcategory is added to your Database.

11:59 AM 4/9/2014

In order to make navigation to the desired product easier each category is further divided into sub categories. The above page lists these sub categories. It provides the details of the company of whose product is being referred to. Then, there is the category which tells that the product is a mobile or a tablet. The sub category further describes that the product is an iPhone, a Mac Book or a Sony Xperia. These sub categories can be edited and activated or deactivated as per requirement. A new sub category can be added by pressing the Add Sub Category button on the top right corner of the page.

12.

Edit Sub Category

For making any kind of changes to an existing sub category the edit option can be used. On pressing edit the above page appears. Here the information can be corrected by entering the right information in the text box provided. On pressing the save button the corrected information will appear in the list of sub categories.

13.

Add Sub Category

The screenshot shows a web application interface for 'Stock Space - Mobile Shop Management System'. A modal dialog box titled 'Add Subcategory' is open in the center. The dialog has a 'Company' dropdown menu set to 'dipen', a 'Category' dropdown menu set to 'mobiles', and a text input field for 'SubCategoryName' with the placeholder text 'Enter SubCategoryName'. There are 'Close' and 'Save' buttons at the bottom right of the dialog. In the background, a table lists existing subcategories with columns for Company, SubCategory, Product, Action (deactivate, edit), and a 'Add New Sub-Category' button is visible in the top right corner of the main interface.

Company	SubCategory	Product	Action

All the products which are available in the store either for sales or for repair are listed on the above page along with their companies, categories and sub categories. This page provides the finest level of details for every product present in store about its origin. The information for each product can be edited and each product can be activated and deactivated as per requirement. For adding a new product the Add New Product button is provided in the top right corner of the page.

15.

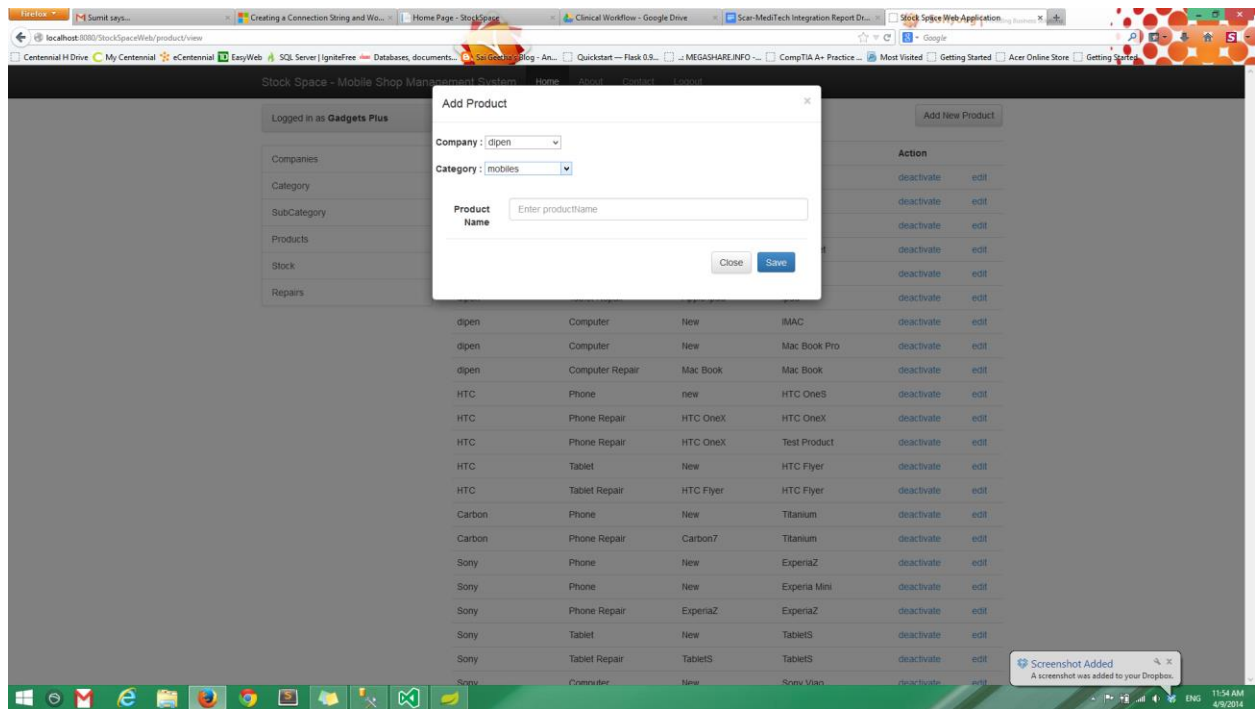

Edit Product

The screenshot shows a web browser window displaying the 'Edit Product' page of the 'Stock Space - Mobile Shop Management System'. The browser's address bar shows the URL 'localhost:2080/StockSpaceWeb/product/edit/42'. The page has a dark header with the system name and navigation links: Home, About, Contact, and Logout. A sidebar on the left contains a 'Logged in as Gadgets Plus' button and a menu with options: Companies, Category, SubCategory, Products, Stock, and Repairs. The main content area features two text input fields: 'Product Name' with the value 'ankush' and 'SubCategoryId' with the value '1000'. Below these fields are 'Close' and 'Save' buttons. The footer of the page displays '© 2014 StockSpace'. The Windows taskbar at the bottom shows the time as 11:54 AM on 4/9/2014.

On pressing the edit button for a product the product information can be altered. The above page appears when editing a product. The corrected product name and sub category id can be entered in the respective text boxes. On pressing the save button the corrected information appears in the product list.

16.

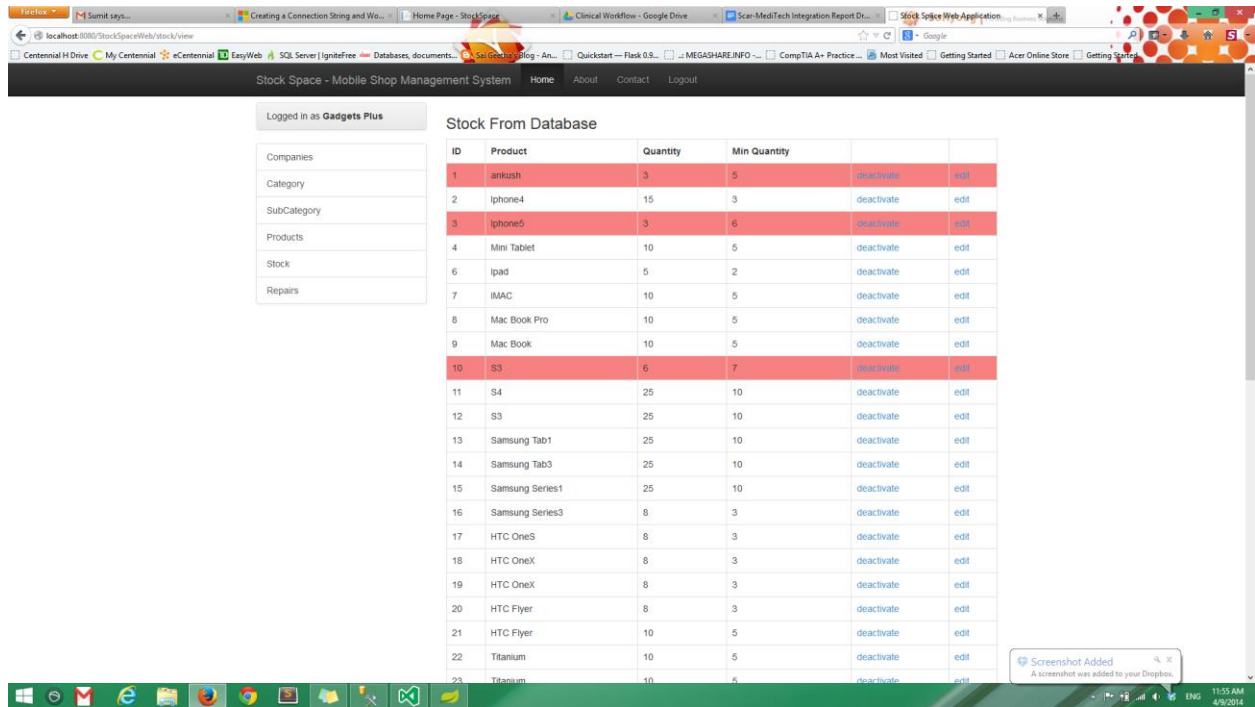

Add Product

When a new product is introduced in the store it can be added by pressing the Add New Product button. On pressing this button the above page appears. Here the user has to select the company and category of the new product from a drop down list. The product name can be entered in the text box provided. On pressing the save button the new product is added in the list of products.

The stock option provides detailed information of all the products available in store for sales. Every product is differentiated from the other by a unique id. The user can see the quantity available for a product and the minimum quantity to be maintained every time. If the available quantity drops below the minimum quantity, the product is automatically highlighted so that the owner can order supplies. The information for every product can be edited and it can be activated or deactivated as per requirement.

18.

Edit Stock

The screenshot shows a web browser window displaying the 'Edit Stock' page of a 'Stock Space - Mobile Shop Management System'. The browser's address bar shows the URL 'localhost:2020/StockSpaceWeb/stock/edit/1'. The page has a dark header with navigation links: Home, About, Contact, and Logout. Below the header, a sidebar on the left contains a 'Logged in as Gadgets Plus' button and a list of menu items: Companies, Category, SubCategory, Products, Stock, and Repairs. The main content area is titled 'Edit Stock' and contains a form with the following fields: 'Product' (text input with value 'ankush'), 'Quantity' (text input with value '3'), 'Min Quantity' (text input with value '5'), and 'IsActive' (checkbox checked). At the bottom right of the form are 'Close' and 'Save' buttons. The footer of the page displays '© 2014 StockSpace'. A Windows taskbar is visible at the bottom of the screen, and a 'Screenshot Added' notification bubble is present in the bottom right corner.

To change the information about any product available in store the edit option is available for every listed product. On pressing the edit option the above page appears. Here the name of the product can be changed and the quantity and minimum quantity can be adjusted. There is a check box which if ticked indicates that the product is active and available.

The Repairs option displays the list of all the products which are in store for repairs. Every entry consists of a unique id followed by the customer name, the product taken for repair and brief description of product. For every product the repair status is updated constantly whether it's Received, In Repair, Shipped etc. The date on which the product arrived is also listed. On top of the page there is a drop down list of all the customers who have given their products for repairs. If a new product arrives the name of the customer can be added by pressing the Add New button on top.

20.

Customer Specific Repairs

The screenshot displays the 'StockSpace - Mobile Shop Management System' interface. On the left, a sidebar shows navigation options: Companies, Category, SubCategory, Products, Stock, and Repairs. The main area is titled 'Repairs From' and features a 'Customer' dropdown menu. The dropdown is open, showing a list of customers: Anithabh Bachchan, Abhishek Patel, Sumit Arora, Jigna Thakur, Meet Panchal, Sukeet Shah, and Suhab Khan. Below the dropdown, a table lists repairs, filtered by the selected customer. The table has columns for ID, Customer, Description, Repair Status, and Date Received. The repairs are color-coded: red for 'Not Repaired/Delivered' and green for 'Repaired/Delivered'.

ID	Customer	Description	Repair Status	Date Received
8	Anithabh Bachchan	Charging Port Replacement	InRepair	2014-04-05 00:25:16
